SyberWorks announces a new article available in its Media Center:
"Deploying Online Courses with Video"

Waltham, Massachusetts –March 16, 2006

SyberWorks, Inc., a leader in custom e-Learning Solutions and the Learning Management System (LMS) industry, today announces an article available in the SyberWorks Online Media Center: *"Deploying Online Courses with Video"* by Al Lemieux, Senior Designer at SyberWorks, Inc.

Mary Kay Lofurno, Marketing Director at SyberWorks, states,

> *"This article discusses the execution of video in online courses and its impact on image and audio quality, smooth playback and content security. It also provides an in-depth comparison of video deployment methods such as embedded video; progressive download and playback; and streaming servers."*

The article is located in the SyberWorks Online Media Center at

About the Author:

Al Lemieux is a Senior Designer at SyberWorks, Inc. and a frequent contributor to the Online Training Content Journal.

The SyberWorks Learning Management System/Learning Content Management System

SyberWorks Training Center (STC) is a Web-based Learning Management System (LMS)/Learning Content Management System (LCMS) that provides complete solutions for managing and tracking all types of training at your organization — from e-Learning courses to traditional classroom training and self-paced study programs. The STC includes extensive testing and assessment tools, reporting, management, communication and collaboration tools, and quality control capabilities — all in one integrated database application that is highly scalable to precisely meet your organization's needs. The SyberWorks Training Center LMS/LCMS can be purchased as an enterprise license or hosted application.
