About the SyberWorks e-Learning Podcast Series

Each month, the SyberWorks e-Learning Podcast Series discusses helpful and influential topics in e-Learning, the Learning Management Systems industry, custom online training development, instructional design, performance management, and talent management. The SyberWorks e-Learning Podcast Series is produced by SyberWorks, Inc., as a free service for professionals in the e-Learning and Learning Management System industries.

The SyberWorks Learning Management System/Learning Content Management System

SyberWorks Training Center (STC) is a Web-based Learning Management System (LMS)/Learning Content Management System (LCMS) that provides complete solutions for managing and tracking all types of training at your organization — from e-Learning courses to traditional classroom training and self-paced study programs. The STC includes extensive testing and assessment tools, reporting, management, communication and collaboration tools, and quality control capabilities — all in one integrated database application that is highly scalable to precisely meet your organization’s needs. The SyberWorks Training Center LMS/LCMS can be purchased as an enterprise license or hosted application.
