

e-Learning Lingo Podcast Discusses “Uniform Resource Identifiers”

Waltham, Massachusetts –October 29, 2009

SyberWorks, Inc., a leader in custom e-Learning Solutions and the Learning Management System industry, today announces the next episode of the e-Learning Lingo Podcast Series, about a tool used in computer network applications: “Uniform Resource Identifier.”

Dave Boggs, CEO of SyberWorks, states, “This week’s episode of the e-Learning Lingo Podcast describes a tool that can identify the application that is used to access a resource on the Internet.”

The e-Learning Lingo Podcast Episode #113: “Uniform Resource Identifiers”

<http://www.syberworks.com/audio/lingopodcast113.mp3> is located in the SyberWorks Online Media Center at http://www.syberworks.com/lingo_podcast.htm in the About Us section of the SyberWorks web site. The transcript is located at http://www.syberworks.com/lingo113_transcript.htm.

About The e-Learning Lingo Podcast

The e-Learning Lingo Podcasts are created by SyberWorks, Inc. as a free service to academia, and a resource to the e-Learning industry at large. Each week, the e-Learning Lingo Podcast Series discusses one or two important terms used by professionals in the e-Learning industry. The e-Learning Lingo Podcast focuses primarily on terms used in e-Learning, Performance Management, and Human Capital Management. The podcasts themselves are very brief and are designed for busy executives or students who don’t have a lot of time.
