

e-Learning Lingo Podcast Defines “Text Equivalent”

Waltham, Massachusetts – March 13, 2008

SyberWorks, Inc., a leader in custom e-Learning Solutions and the Learning Management System industry, today announces the next episode of the e-Learning Lingo Podcast Series, which is about a technique used in e-Learning accessibility: Text equivalent.

Dave Boggs, CEO of SyberWorks, states:

“This week’s episode of the e-Learning Lingo Podcast Series discusses an accessibility technique in which a plain-text alternative matches the content and function of a non-text object on a web page.”

The e-Learning Lingo Podcast: Episode #38 “Text Equivalent”

About The e-Learning Lingo Podcast

The e-Learning Lingo Podcasts are created by SyberWorks, Inc. as a free service to academia, and a resource to the e-Learning industry at large. Each week, the e-Learning Lingo Podcast Series discusses one or two important terms used by professionals in the e-Learning industry. The e-Learning Lingo Podcast focuses primarily on terms used in e-Learning, Performance Management, and Human Capital Management. The podcasts themselves are very brief and are designed for busy executives or students who don’t have a lot of time.
