Mary Kay: Hi, Dave. So tell us about Induction Matrix.

David Powell: An induction matrix is a graphic organizer in which students use a grid to compare and relate the subject's important terms and concepts.

Mary Kay: OK. So how does an induction matrix work, Dave?

Dave: The student sets up a matrix at the beginning of a lesson. Throughout a lesson, he or she updates the matrix to reflect new knowledge. Once a lesson is complete, the student reviews the matrix to reinforce what they learned.

Mary Kay: OK. Sounds good, Dave. Have a great afternoon.

Dave: You, too. Talk to you soon.
